# NOW! PLENTY OF ! **TWIST-EMS** FOR ALL

**C**ALLED the "handiest gadget developed in a generation," Twist-Ems are made fast with a quick twist of the wrist, rather than a knot. Thus, because of the great savings in time possible with their use, they are rapidly replacing cordage of various kinds in operations which require tying.

Manufactured by

**GERMAIN'S**

GERMĀCO PRODUCTS DIVISION

# All the Answers About UTILITY TWIST-EMS:

Q. What are Utility Twist-Ems made of?

A. Utility Twist-Ems are printed paper tapes laminated with preservative base asphaltum, and reinforced with high grade, malleable steel wire.

Utility Twist-Ems are easy to carry; a bundle of 250, pictured above, weighs only four to five ounces.

Home gardeners of America are again tidying up their garden tying jobs with the 8" packaged Twist-Em. A war casualty, this type of Twist-Em is now available in the same handy package in which it made its initial appearance seven years ago.

Q. How long and how wide are they?

A. Utility Twist-Ems are  $\frac{1}{4}$ " wide and are cut in 7", 8", 12" and 16" lengths. They are green in color.

Q. How are Utility Twist-Ems packed?

A. Utility Twist-Ems come in convenient bundles of 250 pieces, packed in cartons of 25,000, 12,500 or 10,000 pieces depending on the length.

Germaco Package Twist-Ems.  
125 Twist-Ems in a handy  
dispenser type box.
